PROJECTS

All Things Manga - Online Marketplace Replica

- Effectively oversaw project execution by coordinating tasks, schedules and team members to ensure timely completion and alignment with project goals
- Designed and developed the front end interface displaying manga, implementing search functionality and ensuring an intuitive user experience
- Responsible for developing robust account functionality, including secure login systems, and user authentication to provide a user-friendly experience
- Collaborative project built to share manga with Angular, Node.js, Express and backed by MySQL

Daily Leaf - Motivation Quotes iOS App

- Developed an app that delivers motivational quotes to users based on their custom schedules
- Managed the end-to-end iOS app lifecycle, ensuring adherence to App Store guidelines
- Utilized Figma and SwiftUI to create an intuitive user interface driving enhanced user engagement
- Ensured seamless compatibility across various Apple devices (iOS, iPadOS, watchOS) guaranteeing a consistent user experience

Johnny's Portfolio - Personal Portfolio Website

- Designed a personal website using HTML, CSS and JavaScript serving as a dynamic portfolio to showcase a collection of diverse projects, including websites and iOS app development
- Implemented a fully responsive design for both mobile and desktop users
